

**TRAVAINI
PUMPS® USA**
Liquid Ring & Rotary Vane Vacuum Pumps and Systems

LRVP Application Spotlight: Commercial Fishing / Aquaculture

Travaini Pumps – Supporting Vessels Worldwide Ready for the Ocean Fishing Season!

Special Application Areas

- Shipboard Fish Holding Tank Transfer
- Ship-to-Dockside Processor Fish Transfer
- Pond-to-Pond or Pond-to-Processor transfer for Aquaculture (Fish Farming)

Travaini Pumps USA has produced pumps used on commercial fishing and related ocean harvesting operations all over the world for more than 25 years. Our LRV Pumps can be found in fisheries from Argentina to Alaska, from Nantucket to Norway.

The depth of our experience in these waters has our customers coming to us for solutions to the unique challenges of the most demanding environments.

THE TRVX 1000 SERIES: 1007 / 1005 / 1003

Travaini's commitment to continuous research and development has yielded the most innovative new Liquid Ring Vacuum Pumps in decades.

The TRVX 1000 SERIES

- 10% better performance per HP, efficiency that **will continue to pay back** over the entire life of the pump.
- 40% smaller footprint than competitor's old designs optimizes your installation, **saving space and reducing costs**.
- Simplified design – with fewer parts- is easier to maintain and results in **lower maintenance costs, better reliability, higher return on investment**.
- Smaller design uses less service fluid (water) **saves on your energy bills** and is friendlier to the environment!
- **Optional REINFORCED IMPELLER AND SHAFT** allow for quick switching from vacuum to compression and faster moving of your fish (and dollars).

TRVX 1000 Series Highlights

- 40 to 75 HP
- Higher Efficiency
- Smaller Footprint
- Simplified Design
- Water Savings
- Reinforced for Heavy-Duty Applications
