

Pompetravaini S.p.A. announces acquisition of 80% of NSB Gas Processing AG, Basel, Switzerland

Castano Primo, Italy, August 1, 2012

Pompetravaini announces that it has completed the share purchase agreement with the holders of 80 percent of the outstanding shares of NSB Gas Processing AG ("NSB"), www.nsbgas.com, a market leading European manufacturer of API liquid ring compressors and liquid ring vacuum pumps and associated systems. NSB is headquartered in Basel, Switzerland, and has annual revenues of approximately CHF 10 million (€ 8,3 million).

NSB is a leading European producer of API liquid ring compressors and liquid ring vacuum pumps and associated systems. These products are used in a wide variety of end markets of which Oil & Gas, Petrochemical and Chemical are the most important. Offices and Factory are located in two separate buildings in the city of Basel, Switzerland. NSB delivers its products worldwide to the most important companies in the Oil & Gas, Petrochemical and Chemical sectors.

"NSB is a natural complement to the Pompetravaini product range and brings an additional value of quality and competence to our worldwide Customers", commented Carlo Travaini, President of Pompetravaini S.p.A.

Pompetravaini is a family owned business, now at its third generation and it has been in the market for over 80 years. Pompetravaini is a worldwide manufacturer of engineered products, including centrifugal pumps, liquid ring vacuum pumps and compressors for more than 25 industries.

The news releases are available on the news section on the Company's website.
